| Project Name | A New Hint to Transportation-Analysis of the NYC Bike Share System |

Step 1: Creating a dashboard by clicking on the options button at the top left corner

Step 2: After Creating a dashboard, add the source file to be visualized uploaded from **My contents**.

The screenshot displays the IBM Cognos Analytics web interface. A modal dialog titled "Select a source" is open, showing a list of data sources under the "My content" tab. The list contains two CSV files: "50_Startups.csv" and "201306-citibike-tripdata.csv", both of which are "Uploaded file" types. The background shows a dashboard with a bar chart and a table, with a "Select a source" button visible in the lower left corner of the dashboard area.

| Name | Type | Last Accessed |
|----------------------------------|---------------|--------------------|
| 50_Startups.csv CSV | Uploaded file | 9/20/2022, 9:25 AM |
| 201306-citibike-tripdata.csv CSV | Uploaded file | 11/5/2022, 3:09 AM |
